

# FEU INSTITUTE OF TECHNOLOGY

## INTEGRATIVE PROGRAMMING AND TECHNOLOGIES M8 SUMMATIVE TECHNICAL EXAM

### EXERCISE:

1. Write a Python GUI program to create two buttons exit and hello using tkinter module.

### INSTRUCTIONS:

Copy your source codes to be pasted in this document as well as a screen shot of your running output.

*Snip and paste your source codes here. Snip it directly from the IDE so that colors of the codes are preserved for readability. Include additional pages if necessary.*

```
from tkinter import *

def click():
    print("Hello")

window = Tk()
window.title("Buttons")
window.geometry("300x200+200+250")
Label(window, text="Hello and Exit Button", font="Poppins 18 underline").pack()
button1 = Button(window, text="Say hello!")
button1.config(command=click)
button1.pack()

button2 = Button(window, text="Click to exit", command=window.destroy).pack()
window.mainloop()
```

Output:
